IN THE CLAIMS:

- 1. (Original) A method of using a rotatable roll having a roll body and an external covering of a non-metal material for rolling oil-containing agricultural products or other types of grain.
- 2. (Withdrawn) A method of using a rotatable roll having a roll body and an external covering of a non-metal material for processing foodstuffs.
- 3. (Withdrawn) The method according to claim 2, comprising using the roll for an intermediate processing of foodstuffs.
- 4. (Withdrawn) The method according to claim 2, comprising using the roll for flocking foodstuffs.
- 5. (Withdrawn) A roll for processing foodstuffs or products or foodstuffs, the roll comprising a metal roll body having an outer surface, and a covering of non-metal material mounted on the outer surface of the roll body.
 - 6. (Withdrawn) The roll according to claim 5, wherein the covering is of synthetic material.
